

Omaha, Nebraska's newest and only High-End Car Audio Retailer, High Definition Mobile Audio, announce the launch of their new website at www.hidefmobileaudio.com

OMAHA, NE, November 2, 2011 – High Definition Mobile Audio, The premiere Retailer for High-End Car Audio Products in Omaha, NE announce the launch of their new website www.hidefmobileaudio.com.

Jerry Niebur, proprietor of High Definition Mobile Audio, a high-end car audio retailer located in Omaha, NE dedicated to providing customers with high-end audiophile level speakers, amplifiers and video products for the car, announce today the launch of their new website: www.hidefmobileaudio.com.

"High-end car audio is not well known in our area," said Jerry Niebur, proprietor, High Definition Mobile Audio and long time car audiophile enthusiast. "Our company goal is to educate consumers about obtaining audiophile level audio and video within the car environment, develop a plan to meet the audio goals of our customers, and provide them with the best products available from all over the globe. Even with the recent improvements by car manufacturers to their mobile audio systems, no factory system can replicate the clarity, depth, and realism of a high quality after market audiophile system. To achieve the best sound you simply must upgrade, and we are very excited with the launch of our new website which will further enhance our business and educate potential customers"

Jerry Niebur has been active in sound quality competitions and hi-end car audio for the last 17 years. He is also a respected member of several car audio forums dedicated to leaning and developing new techniques to integrate audiophile level speakers and amplifiers without the need to make any permanent changes to the vehicle itself. Jerry Niebur has also conducted a subjective listening test of car audio midrange drivers from 16 different manufacturers, which has been published by world renowned speaker manufacturer, Dynaudio, as well as other respected car audio sources.
